

# Statement of Purpose

## Institution – Canadore College

### Course – Construction Project Management

#### **Introduction:**

I am a Civil Engineer graduate from The Pacific School of Engineering that offers best faculties & services in Civil Engineering. Bachelors' degree in Civil Engineering is a four-year course, affiliated to Gujarat Technological University, Gandhinagar. I wish to pursue my higher studies in Construction Project Management from Canadore College commencing spring 2022.

#### **Educational Background:**

I would like to introduce myself as an active, hard-working, positive and self-made person. As a child I was involved with the buildings and wanted to make them. With each passing years, I realized that my profession would be around the field that dealt with development of constructions. My curiosity for creating new dimensions and increasing my knowledge of creativity led me to select Construction as my arena of higher studies.

#### **Why Canada?**

The key reason for choosing Canada is the country's welcoming nature as Canada is a melting pot where people of different ethnicities live together without fear of racial discrimination. Canada greets overseas students during a safe environment and offer the simplest quality of life and job opportunities. Canada hosts nearly 1/2 one million global college students, Canada is thought to deliver peak satisfactory education at less costly training charge with degrees which can be globally recognized. Add to it, Canada stands proud as a well-preferred us of to review amongst Indian college students. When a scholar receives a diploma from a Canadian university, it acts as a mark of believe and excellence. 26 of Canada's academies rank in the QS World University Rankings 2019 and 27 of them within the planet University Rankings 2019.

#### **Why Canadore College?**

Through my research and analysis, I believe that Canadore College sets forth interesting teaching methodologies that will advance my expertise and my managerial skills to prepare and deliver high yielding projects with ease. My research about the college has also planted a great trust in teachers who nurture international students with great care.

Moreover the college speaks of the diverse opportunities in the Construction project management roles, which is why I am eagerly waiting to probe this exciting opportunity, which is a stepping stone for my future career.

Canadore College built in 1967 as a campus of Cambrian College of Sudbury. It were given an impartial status in 1972. It has a lavish new campus of 650 acres.
